Hospital	Definition and Notes
Takeo Provincial Hospital	Takeo Provincial Hospital is a CPA 3 hospital located in Takeo city, Takeo province. This hospital is a tertiary facility in an urban location. At study end, the hospital served a population of 955,126. The hospital campus has an active Health Center onsite, thus the hospital only sees specialty OPD cases. There is no Ophthalmology department as Takeo Eye Hospital is located nearby, supported by Caritas. There is a Pediatric Operating Theater that is supported by Bambino Italy. No staff work for this ward. A private CT Scan company operates in the hospital.
